

JOHNNY CORDERO

NETWORK & TELECOM OPERATIONS LEADER | ENTERPRISE COMMUNICATIONS & SERVICE DELIVERY

Operations Leadership | Unified Communications | Secure Networking | Senior Technical Escalation

johnny.cordero1@gmail.com | linkedin.com/in/johnny-cordero | English / Spanish

PROFESSIONAL PROFILE

Network and telecommunications operations professional with nearly 20 years of progressive experience spanning enterprise field operations, Tier 3 service assurance, proactive network operations, service delivery, unified communications, WAN connectivity, and secure networking. Currently leads 12 senior engineers and is accountable for SLA/KPI performance, incident and escalation governance, vendor/carrier coordination, and customer-facing execution, while remaining the senior technical escalation point and decision partner for complex service-impacting issues. Combines operational leadership with a strong technical foundation in Cisco Collaboration, enterprise voice, connectivity, FortiOS, and service restoration. CCNP Collaboration and Fortinet NSE 7 certified; Global MBA graduate with honor distinction and executive education from The George Washington University School of Business.

LEADERSHIP, TECHNICAL & OPERATIONAL EXPERTISE

Network Operations | Telecom Operations | Infrastructure Operations | Service Delivery | Unified Communications | Enterprise Service Assurance | Operations Leadership | SLA/KPI Governance | Incident and Escalation Management | Major Incident Resolution | Problem Investigation | Vendor and Carrier Management | Enterprise Customer Operations | Cross-Functional Delivery | Executive Reporting | Continuous Improvement

Cisco Collaboration | Cisco VoIP | BroadWorks | HPBX | SIP/IP Trunking | PBX and Call Routing | Secure Networking | FortiOS | Perimeter Security | Dedicated Internet | MPLS/APN | Point-to-Point Connectivity | Wi-Fi | Structured Cabling | CPE and Circuit Troubleshooting | Service Activation and Provisioning | Root Cause Analysis | Technical Documentation | Mentoring and Knowledge Transfer

PROFESSIONAL EXPERIENCE

Network & Telecom Operations Leader / Senior Technical Escalation

Claro Dominicana / America Movil | Apr 2024 - Present

ROLE SCOPE & RESPONSIBILITIES

- Lead enterprise telecommunications and network field operations across the Metro-East region, directing 12 senior engineers and coordinating supervisors, NOC/engineering, dispatch, vendors, carriers, and enterprise customer stakeholders.
- Own delivery and service assurance for installations, changes, repairs, and incidents across unified communications, HPBX, SIP/IP Trunking, dedicated internet, MPLS/APN, Wi-Fi, structured cabling, secure networking services, and customer-premises connectivity.
- Govern SLA/KPI performance, backlog, priorities, escalation paths, corrective actions, and major-incident communications; remain the senior technical decision point for complex voice, connectivity, circuit/CPE, provider-handoff, site-readiness, and service-restoration issues.

SELECTED ACHIEVEMENTS

- Improved project implementation timeliness from 91% to 100% through stronger operational controls, escalation discipline, and execution follow-through.
- Internalized an electrical grounding installation and reconstruction process covering 422 cases, reducing costs by approximately 55% and turnaround time from 10 days to 1 day.
- Directed cross-functional delivery of a 1,200-unit GPON/FTTH deployment for a major public event, completing the work two days ahead of commitment.
- Led technical assessment and upskilling for approximately 300 employees across 11 learning paths, achieving a 94.24% overall result; recognized as Supervisor/Leader of the Year in 2024 and 2025.

Corporate CNOC Engineer IV - Tier 3 Service Assurance & Network Operations

Claro Dominicana / America Movil | *May 2015 - Apr 2024*

ROLE SCOPE & RESPONSIBILITIES

- Provided specialized Tier 3 service assurance, troubleshooting, and escalation support for enterprise customers across VoIP, HPBX, broadband and dedicated internet, perimeter security, IPTV, and critical WAN connectivity services.
- Diagnosed complex incidents and coordinated restorations, maintenance windows, service changes, and recurring-problem follow-up across NOC, engineering, field teams, vendors, carriers, and enterprise customers.

SELECTED ACHIEVEMENTS

- Created a broadband laboratory, developed its technical curriculum and training materials, and delivered hands-on training to peer engineers to strengthen diagnostic consistency and knowledge transfer.
- Reorganized Claro's equipment cabinet at NAP del Caribe, improving equipment identification, documentation, maintenance access, and operational readiness.
- Redesigned and standardized internal workflows for implementing, maintaining, expanding, and changing network infrastructure facilities, improving ownership, technical handoffs, and execution control.

Proactive Network Operations Engineer III

Claro Dominicana / America Movil | *Nov 2012 - May 2015*

ROLE SCOPE & RESPONSIBILITIES

- Monitored and diagnosed WAN services for medium and large enterprise customers, using alarms, performance data, topology context, ticket ownership, and technical escalation to protect service continuity and coordinate restoration.

SELECTED ACHIEVEMENTS

- Served as one of the founding engineers of the proactive network operations center and participated throughout its design, establishment, transition to production, and operational stabilization.
- Helped define monitoring, diagnosis, escalation, documentation, and cross-team handoff practices that supported the center operating model.

Convergent Data Transport Technician

Claro Dominicana (formerly Verizon Dominicana) / America Movil | *Dec 2006 - Nov 2012*

ROLE SCOPE & RESPONSIBILITIES

- Installed, tested, commissioned, and handed over numerous enterprise WAN services across the Santo Domingo metropolitan area, including site validation, physical installation, CPE connectivity, turn-up troubleshooting, activation, and customer handoff.

SELECTED ACHIEVEMENTS

- Earned recognition as a top-performing technician and became a go-to peer reference for complex installations, field troubleshooting, and practical technical guidance.

CERTIFICATIONS

Cisco: CCNP Collaboration (active through Jun 2029) | CCNA (active through Jun 2029) | Cisco Certified Specialist - Collaboration Core, Call Control On-Premises, Hybrid and Cloud | Cisco BroadWorks Engineer / Specialist

Fortinet: NSE 7 - Secure Networking | NSE 6 - Secure Networking | NSE 4 - FortiOS (all active through Jul 8, 2028) | **CompTIA:** Network+

EDUCATION & EXECUTIVE EDUCATION

Executive Education Program: Specialization in Strategic Business Management | The George Washington University School of Business | Washington, DC | June 2026

Global MBA, Strategic Business Management | ADEN International Business School / EUNCET Business School - UPC | 2026 | Honor Distinction

Bachelor's Degree in Computer Science | Universidad Autonoma de Santo Domingo (UASD) | Cum Laude

Diploma in Senior Management | Universidad Autonoma de Santo Domingo (UASD) | 2024

Technical High School Diploma in Electronics
